Office Action Summary

Serial Number: 08/990,195

Art Unit: 3727

Claims 8,10,11 and 20 are finally rejected as set forth in the Office Action dated 10/20/00.

Applicant's arguments filed 12/21/00 have been fully considered but they are not persuasive. The general term "build legs into the pot" does not specified as single-piece pot. The term "build legs into the pot" is broad enough to include the legs being separately made and then connected together. It is not required have to be a single-piece. Shackelford shows all the structures of the device as recited by the claims. Shackelford shows the legs as claimed and the legs include openings with fluid absorbing material, the soil. Considering the bottom portion of the reference as the claimed base portion, the soil in the legs areas is capable of absorbing fluid. As long as the reference shows all the claimed structure with the function which is capable to be performed inherently by the structure that will meet the 35 U.S.C.102 rejection.
